

ENVIRONMENTAL POLICY

As a member of the chemical industry, **Schunk Carbon Technology GmbH** feels obliged to protect the environment. This is done via our environmental policy as outlined below. This environmental policy is derived from that of our organisation, the observance of both internal and external issues, as well as the expectations of interested parties.

The aim of our environmental policy is to protect the environment whilst maintaining our business.

The pillars of our environmental policy are as follows:

We see our environmental policy as an investment in the futures of both our company and our location. It is our contribution to the environment. Our company directors audit the effectiveness and viability of our environmental policy annually.
